Dear Governor Patton:

In accordance with Chapter 17 of the Kentucky Revised Statutes, I am pleased to submit this 27th annual **Crime in Kentucky** report.

These statistics could not have been accurately compiled without the continued cooperation of all law enforcement agencies in the Commonwealth.

I want to pledge the continued support of the Kentucky State Police in carrying out our responsibility in improving the quality, accuracy and timeliness of Kentucky's Uniform Crime Reporting System.

Respectfully submitted,

DEDICATION

This book is dedicated to all of the law enforcement officers and support personnel who uphold the laws and serve the citizens of the Commonwealth of Kentucky. Their continued support and cooperation make possible the publication of the 1996 Crime in Kentucky.

We are extremely proud to report that in 1996, no Kentucky law enforcement officer was required to pay the supreme sacrifice of his/her life, in the line of duty, for the citizens of this great Commonwealth.

SPECIAL RECOGNITION AND ACKNOWLEDGMENTS

Numerous law enforcement officers were injured in the line of duty during 1996; regrettably, some of those injuries were life-threatening.

We are extremely indebted and eternally grateful to all law enforcement officers for their willingness to place themselves in harm's way in an effort to serve and protect the citizens of the Commonwealth of Kentucky.

It is impossible to list all of the law enforcement officers who were injured in 1996. Our staff has therefore provided the following reports which we feel epitomize the commitment of all law enforcement officers in the Commonwealth, as well as throughout the United States.

LEXINGTON FAYETTE URBAN COUNTY GOVERNMENT Officer Tim Russell

On Sunday, June 30, 1996, at approximately 11:00 p.m., Lexington Police Officer Tim Russell was dispatched to 3888 Leestown Road in response to a terroristic threatening complaint. Officer Russell arrived at the location and attempted to contact the complainant. He was immediately approached by the subject of the complaint who produced two handguns, pointing them in the direction of Officer Russell.

A brief verbal exchange ensued - which included threats on Officer Russell's life. When the subject lowered his weapons to his side, the officer attempted to seek cover. The subject fired two shots at Officer Russell, one of which struck him in the neck/shoulder area. When additional officers arrived, they placed the combative suspect into custody and administered first-aid to Officer Russell.

Officer Tim Russell sustained extensive nerve and tissue injuries to his neck including damage to the carotid artery and his vocal cords. The bullet traveled through his neck and lodged beside the clavicle, which was also fractured by the round.

Officer Russell has undergone multiple surgeries throughout the last year to repair the gunshot damage and has endured months of physical therapy. We are pleased to report that he returned to work in late July, 1997

**LEXINGTON FAYETTE URBAN COUNTY
GOVERNMENT
TRANSYLVANIA UNIVERSITY POLICE
Officer Edward Lingenfelter
Lieutenant Brian Hassall**

On Friday, June 21, 1996, at approximately 1:30 a.m., Lexington Police Officer Edward Lingenfelter stopped a suspected drunk driver on East Vine Street. Officer Lingenfelter approached the vehicle to interview the remaining passenger, after having arrested the motorist for DUI. Without any warning or provocation, a subject uninvolved in the traffic stop approached the officer and opened fire from 2 to 3 feet away.

The first shot struck Officer Lingenfelter on the chin, destroying a large portion of his lower jaw. The officer drew his service weapon, but before he could return fire, he was struck by another round which penetrated his upper right arm, missing his body armor and coming to rest in his chest cavity. At this point the officer dropped his weapon, since this round caused major nerve and arterial damage to his gun hand.

As Officer Lingenfelter attempted to recover his weapon with his left hand, the subject attempted to fire yet another round, but his weapon apparently misfired. Officer Lingenfelter took advantage of this opportunity and sought cover across the street. The suspect fled the scene and a massive search was initiated.

At approximately 2:20 a.m., officers with the Transylvania University Police encountered a subject matching the suspect's description. Upon their approach, the suspect opened fire, wounding Lieutenant Brian Hassall in the right thigh. The suspect was disabled when the officers returned fire. He was taken into custody and charged with the shooting of Officer Lingenfelter and Lieutenant Hassall.

Fortunately, Lieutenant Hassall was not seriously injured. Officer Lingenfelter, however, suffered extensive nerve damage to his right arm as well as extensive muscle, tissue, bone, and dental injury to his mouth and jaw. After several surgical procedures and much physical therapy, he returned briefly to a limited duty assignment in November 1996. He underwent several additional surgical procedures and continued physical therapy in 1997. Officer Lingenfelter returned again to a limited duty assignment in July of the same year.

SYSTEM**

KENTUCKY'S UNIFORM CRIME REPORTING SYSTEM

Prior to July 1, 1987, Kentucky's Uniform Crime Reporting System was based on monthly summary counts of criminal offense and arrests. This data submitted by state and local law enforcement agencies was adequate for broad analysis of general crime trends, however it did not provide necessary tools for detailed studies required to meet the needs of criminal justice professionals, the law enforcement community and Kentucky legislators.

After July 1, 1987, law enforcement agencies were required to submit "Incident" information which differed from "Summary" in that it provided full detail crime specifics. This marked the beginning of Kentucky's Incident Based Reporting System which required the submission of either the Uniform Offense Report (UOR1) or the uniform data elements as contained in the statewide database. While not complete, Kentucky continues to make progress toward full implementation of a complete Incident Based Reporting System.

1996:

The compilation of the 1996 crime data has proven to be a most challenging task for Kentucky State Police due to extensive automated data collection problems. Our computer system experienced a strong power surge during a severe storm which rendered it virtually useless. Repair was not an option and replacement parts were non-existent due to the age of the unit. We are confident that offense information received from the various law enforcement agencies throughout Kentucky is of much better quality than in the past, however we cannot rule out the possibility of having incomplete data as a result of weather related automated system damage.

In an effort to lend support to our crime data retrieval dilemma, the Administrative Office of the Courts (AOC), has provided arrest data for the 1996 Crime in Kentucky publication. Because of differing methods of compilation of this data, you may notice a wide variance between the arrest data provided in the 1995 Crime in Kentucky (which was taken from counts of individuals arrested on copies of the actual citation) and the 1996 arrest data provided by AOC. More in-depth explanation of possible reasons for these variances are listed on page 47 of this publication (State Arrest Data) along with suggested measures to make comparisons with 1995 data.

Currently Kentucky reports summary statistics in **Crime in Kentucky** and to the Federal Bureau of Investigation. A majority of the law enforcement agencies are submitting incident or offense based information. However, some agencies are still submitting summary information due to varying factors. With the approach of the year 2000, our goal is to become NIBRS compliant in that all data elements required by the FBI for NIBRS certification are captured. It is our intention, if budgetary constraints allow, to purchase a new computer system and software which would make this possible while, at the same time, update the offense and arrest reports to likewise capture all required elements.

AUTO THEFT	10,441	9,835	6.2%	7.98%
TOTAL	130,892	127,621	2.6%	100%

The total number of Part I crimes reported by law enforcement agencies in Kentucky during 1996 and 1995 is shown in the chart above. It should be noted that these overall statistics reflect only offenses reported to or known by the police.

There were 130,892 offenses reported in 1996, an increase of 2.6% over 1995. The largest percentage increase was in robbery, with an additional 334 offenses reported during 1996 - an increase of 8.5%. The next largest percentage of increase in Part I offenses was auto theft, with 6.2%.

The only percentage of decrease for 1996 was in the murder category. Although the numbers of murder offenses have increased in specific geographical areas of the State, the overall data reflects a decrease of 44 offenses, or 16.2% less than in 1995. This can also be partly attributed to improved quality control procedures implemented by the Records Section of Kentucky State Police. Murder reports were manually screened to remove acts of "attempted murder" rather than the actual offense of murder. It should also be noted that the category of aggravated assault (a Part I crime) does not include "Assault 4th Offenses" (no serious or aggravated injury). These charges were reclassified into the Part II category as "simple assaults" beginning in 1995 and will continue to be counted in this manner for accuracy and continuity in reporting.

When making comparisons between years, the following should be taken into account: 1) Part I offenses are not inclusive of all offenses reported to the police; 2) Increases or decreases in the number of crimes reported can be attributed to a variety of factors, including methods of reporting and tabulating on the part of the law enforcement agencies; 3) Differing levels of citizens' awareness and their responsibility to report crime have a direct impact on the number of reports received by police.

KENTUCKY "CRIME INDEX" - 3,373.5

The crime index, or rate, is used nationally and is derived from the following formula:
 Population divided by 100,000 = X
 Number of offenses divided by X = crime index.
 Kentucky's crime index for 1996 is based on the current estimated population of 3.88 million.

CLEARANCE RATES

Clearance rates are the percentages of cases cleared (through arrest or exceptional means) when compared with the total number of offenses reported to or known by the police. As shown in the chart below, clearance rates for property crimes are traditionally low. With the exception of robbery, clearance rates for violent crimes are high. High clearance rates for murder, rape, and aggravated assault are attributable to the fact that the perpetrator is usually known, recognizable, or in some way associated with the victim. Low clearance rates for robbery as well as property crimes can be attributed to the difficulty of the victim in identifying the perpetrator.

The right-hand chart depicts the clearance rates of property crimes versus violent Part I crimes.

The chart below depicts clearance rates for each of the seven Part I crimes.

DEFINITION

Murder is the unlawful killing of a human being with malice aforethought. Justifiable homicides and traffic-related deaths are not included.

NUMBER REPORTED	CLEARANCES	RATE
227	147	64.8%

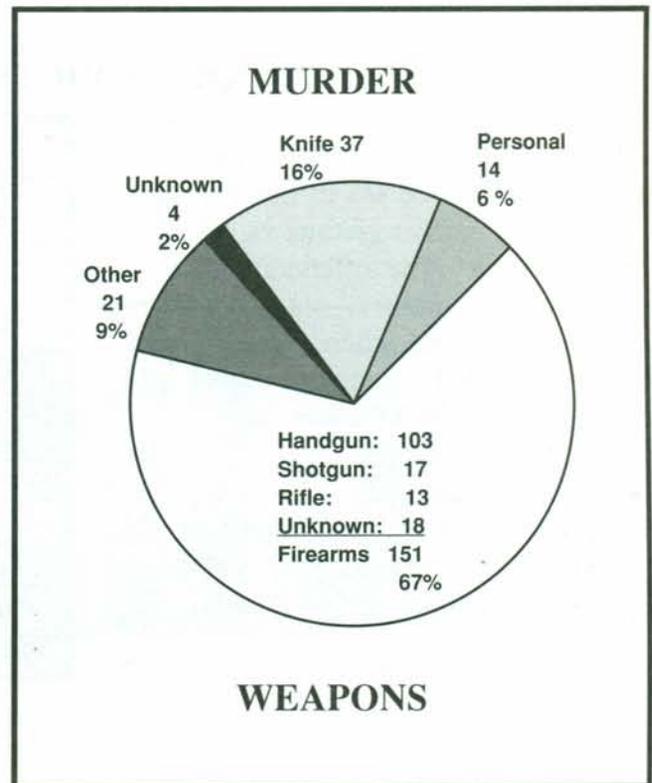

Murder is the most serious of all Part I crimes. The clearance rate is the highest of all Part I crimes, at 64.8%. Although some murders are difficult to solve, the intensity of police investigations, together with solvability factors, account for the high clearance rate for murder.

The offender unknown category reflects murders not cleared by arrest and instances where the offender information was not reported. In cases with multiple victims, the offender information is counted for each victim. In some instances, more than one person is charged with the murder of a single victim. Only one offender is shown for each victim in these charts for purposes of continuity.

RAPE

DEFINITION

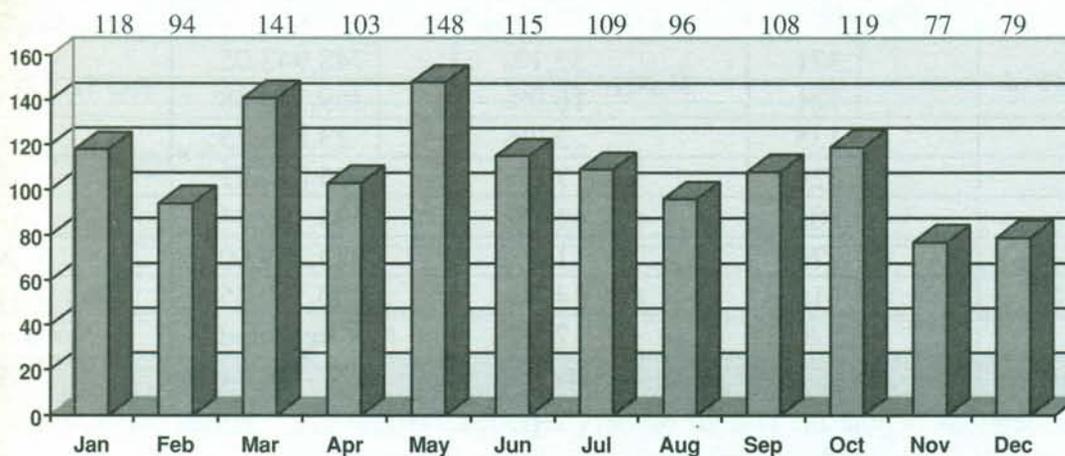

Rape is defined as the carnal knowledge of a person, forcibly or otherwise, against the person's will. Only forcible rapes are included, together with assaults for the purpose of rape and attempted forcible rapes. Excluded are rapes where the victim is under the age of consent and no force is used.

NUMBER REPORTED	CLEARANCES	RATE
1,307	709	54.2%

The 54.2% clearance rate for rape is high when compared with property crimes. One explanation for the number of rapes cleared is the fact that the victim and the offender are frequently acquainted or even related.

**RAPE

AGGRAVATED ASSAULT

DEFINITION

Assault is the unlawful attack by one person upon another for purpose of inflicting severe or aggravated bodily injury. It is not necessary that injury result from an aggravated assault when a gun, knife, or other weapon is used which could, and probably would, result in serious personal injury. Therefore, all assault attempts where serious injury would have been likely to occur are included. Excluded from the Part I crime of aggravated assault are all assaults which do not include the use of a dangerous weapon and in which there was no serious or aggravated injury (assault 4th). These simple assaults are counted as Part II crimes.

NUMBER REPORTED	CLEARANCES	RATE
8,589	5,220	60.8%

The 60.8% clearance rate is high because the victim is frequently related to or acquainted with the assailant.

**AGGRAVATED ASSAULT WAS COMMITTED

The category of aggravated assault includes the following offenses: attempts to murder, poisoning, assault with a dangerous or deadly weapon; maiming; assault with explosives; and all attempts to commit said offenses.

BURGLARY

DEFINITION

Burglary is the unlawful entering or remaining in a building with the intent to commit a crime. This includes entries where force of any kind is used to gain entrance, entries where no force was used (an unlocked door or by concealment), and attempts to enter forcibly (even though entry was not actually gained).

NUMBER REPORTED	CLEARANCES	RATE
29,306	4,683	16.0%

Burglary is one of the most frequently committed Part I crimes.
Burglary increased 3.8% from 28,226 in 1995, to 29,306 in 1996.

**BURGLARY WAS
COMMITTED EVERY

THE COST OF BURGLARY

Burglary is a crime of opportunity and is most likely to occur when a home or business is not occupied. The number of burglaries, classified by residential and non-residential, including both day and night occurrences, and the value of property losses reported, is shown in the table below.

LARCENY

DEFINITION

Larceny, or larceny-theft, is the unlawful taking of property or articles of value without the use of force, violence, or fraudulent conversion. Included are such offenses as pocket picking, purse snatching (where little or no force is used), shoplifting, thefts from autos, thefts of auto parts and accessories, bicycle thefts, and thefts from buildings when the perpetrator entered legally. Con games, forgeries and bad checks, embezzlement, and obtaining money under false pretenses are not included under the category of larceny.

NUMBER REPORTED	CLEARANCES	RATE
76,751	16,654	21.7%

Larceny is the most frequently committed Part I crime. Other than the stolen property itself, there are normally few clues on which to base an investigation. Consequently, the clearance rate for larceny is low at 21.7% in 1996.

**LARCENY WAS COMMITTED EVERY

THE COST OF LARCENY

The table below shows the different types of larcenies reported in Kentucky during 1996 by classifications. The number of offenses in each classification as well as the value of the stolen property is shown below.

DOMESTIC VIOLENCE

DOMESTIC VIOLENCE is a problem which has been of major news focus both nationally and in Kentucky. The numbers of reported cases and of victims served in protective shelters is proof that this is a serious public safety issue worthy of priority response. Domestic violence includes any of the following crimes when committed by one family member/partner against another: homicide, kidnapping, sex offenses, stalking, assault, and terroristic threatening.

ADMINISTRATIVE OFFICE OF THE COURTS (AOC)

In FY96, AOC reports that **26,684*** petitions were filed by persons seeking Domestic Violence Protective Orders. There were **24,634*** disposition case closings. (AOC does not distinguish between cases dismissed and types of orders issued).

***Both of these figures include estimates from Jefferson County due to "automated system conversion" and data not being readily accessible.**

DOMESTIC VIOLENCE

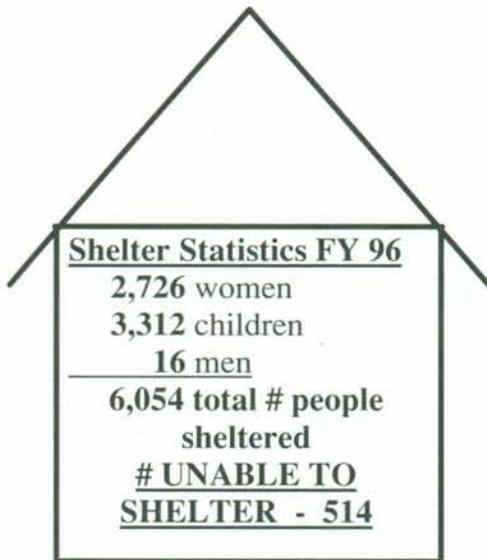

REPORTS TO THE DEPARTMENT FOR SOCIAL SERVICES (DSS)

The 1976 Kentucky General Assembly enacted KRS 209, the Adult Protection Act, which mandates reporting any known or suspected cases of adult abuse, neglect or exploitation to the Department for Social Services (DSS), Cabinet for Families and Children (formerly Human Resources). DSS protective and support services are provided to adult victims, upon request. In 1978, the statute was expanded to include the mandatory reporting and delivery of voluntary protective services to victims of spouse abuse. Law enforcement agencies continue to serve as the primary reporting source to DSS and often work together in responding to violent families.

**STATE
ARREST
DATA**

NOTICE

As you may notice, the format for presenting the 1996 Crime in Kentucky arrest data has changed from that of previous years. Due to severe weather-related computer problems experienced by Kentucky State Police, we were unable to produce arrest information for 1996. The Administrative Office of the Courts (AOC) cooperated with this agency by providing arrest data from their court records. You will **not** be able to compare this arrest data to what was published in the 1995 Crime in Kentucky publication, or any years prior to that time since it was gathered in an entirely different manner. To aid those individuals who require some type of trend analysis or comparative study, we are printing comparable numbers for **1995** in this publication. These numbers were also supplied by the AOC.

As the data regarding Part I (violent) crimes is collected similarly by both AOC and KSP, there will be no large discrepancy—however, the Part II numbers will vary considerably. This can be attributed to the fact that arrest data previously published in Crime in Kentucky has reflected actual counts of individuals arrested within a given year, based on reports to Kentucky State Police from various police agencies. The Administrative Office of the Courts' data is derived solely from matters presented before the court. The difference lies in the fact that many such matters may be taken before the court system, such as those reported by the victim directly to the court, which never involved a law enforcement agency or actual arrest (charged but not arrested). Examples of these instances could include bad checks, juvenile matters, criminal mischief, minor thefts, vandalism, etc. This may also explain a significant difference in the juvenile data shown in this publication as opposed to that listed in the 1995 book. As stated previously, comparisons should only be made against the 1995 figures listed in this book and not that of prior publications because of the differing source and information gathering processes of the data.

We apologize for any inconvenience that this situation may have caused our users of Crime In Kentucky. We have made every attempt to present available arrest data in a manner which will allow at least one year of analysis. The 1995 data shown in this publication should be considered a baseline for subsequent arrest studies.
