

# BOW & ARROW

Create a tiny bow and arrow

## WHAT YOU NEED

- 8 Q-tips
- Tape
- Rubber Band or String

## HOW TO DO IT-STEP BY STEP

- 1) Tape 3 sets of 2 q-tips together side by side.
- 2) Tape the cotton swab ends together in the shape of a 'C'. Don't tape the two swabs on the end together making an 'O'.
- 3) Tie the rubber band or string around the ends of the 'C'. This makes the bow along with the string on the bow.
- 4) Tape the two remaining q-tips together, end to end. This will make your arrow.
- 5) Shoot your arrow!
