

Active Shooter Safety

An active shooter is a situation where one or more suspects participate in a random or systematic shooting spree, and demonstrating intent to continuously harm others. The overriding objective appears to be that of inflicting serious bodily injury or death rather than criminal conduct.

SAFE SCHOOLS INITIATIVE

Violence Prevention and Active Shooter Survival

In the wake of the recent school violence, and after a strong demand from areas schools, the Kentucky State Police (KSP) with input from school administrators across the state, have developed a program aimed at helping all schools respond effectively during an active shooting incident.

The program does not set school policy. It provides four levels of KSP assistance to aid school officials in establishing their own action plans.

School administrators, depending on the need of the individual schools, can choose any one or all four levels of the assistance being offered.

Level 1

KSP will provide on-site visits to the requesting school where a review of the schools current plan of action will be conducted and evaluated. Recommendations for school protocols, if requested by school officials, will be provided from the KSP school safety pamphlet.

Level 2

KSP will assist and participate in school ‘lock down’ drills. Provide feedback and additional information to school officials based on the ‘most likely’ police responses and needs.

Level 3

KSP will provide an on-site visit

and walk through assessing strengths and weaknesses of the facility. Provide ‘target hardening’ information to schools officials via the KSP multi-layered school security checklist.

Level 4

KSP will provide a three-hour block of job specific training for school personnel designed to give options for consideration when facing an active shooter. Training will consist of classroom instruction along with the opportunity to take part in realistic scenarios to build their confidence to survive an active shooting event.

For more information contact your local KSP Post.
